

A photograph of four consulting professionals (three men and one woman) standing in a modern office environment with large windows and glass partitions. They are all smiling and have their arms crossed. The woman is in the center, wearing a pink shirt and black pants. The men are wearing business attire, including suits and button-down shirts. The background shows a bright, open-plan office space.

# CONSULTING SERVICES

**Experienced Professionals  
When You Need Them**

## **Aggressive timelines, one-off projects or temporary skill gaps; get the best talent without the long-term investment.**

The need to manage intermittent skills, resources and gaps is typical in many organizations. GSS Consulting Services can help smooth out the peaks and troughs of skills delivery and give your organization a fast track to finding the best IT talent for your immediate needs.

Identifying and recruiting the right talent yourself is a lengthy, expensive and inefficient model for achieving business-critical initiatives. Often, the skills needed are hard-to-find, experienced professionals who can hit the ground running, with no training and minimal management.

Outsourcing specific roles or entire teams gives you more time to focus on core business activities. If an organization is to be successful and profitable, management should be planning and directing business strategies and not focusing on administrative or ancillary functions.

## **Technology Expertise**

Our pool of highly-skilled, certified and experienced talent includes:

- Mainframe Programming
- Business Analysis
- Application Development and Engineering
- Database Design, Development and Administration
- Virtualization
- Systems Analysis
- Network Engineering and Administration
- Web Development
- Help Desk and Technical Support
- Project Management
- Technical Writing

## About GSS Infotech

GSS Infotech provides enterprise level technology solutions that focus on driving business efficiency and reducing total cost of ownership. Founded in 1999, GSS infotech operates worldwide through offices in the U.S., India and the Middle East. We provide customized and cost-effective solutions to customers, focusing on Infrastructure Management, Cloud Enablement and Application Development.

### Contact Us

Tel: (877) 452 3700  
e-mail: [info@gssinfotech.com](mailto:info@gssinfotech.com)

## Stability and Performance

Our robust and proven processes ensure that you get highly skilled placements that integrate into your organization with minimal of disruption. Our highly disciplined program management and change management controls eliminate the hurdles of managing complex deployments. GSS Infotech can quickly pull together onshore, near shore and offshore resources into a highly efficient team that quickly delivers short time-to-benefit windows.

## Financial Advantage

Using GSS Infotech's lower cost delivery model, companies are often able to reduce their employee count and related costs, such as recruitment, supervision, salary and benefits. By outsourcing a capital-intensive function, organizations also benefit from reduced equipment obsolescence and depreciation costs.

## Flexible Management Options

Many organizations choose to absorb entire teams for specific short-term project delivery. Often companies do not have the bandwidth to manage the team. GSS Infotech can help by managing part, or all of your outsourced project team with seamless integration into your existing management hierarchy and reporting lines.

## Diverse Expertise

GSS Infotech stays abreast of changing technologies and is proficient in all major platforms and operating systems. We are driven by quality processes and proven best practices. Our broad range of experience enables us to quickly become a productive part of your team.
