ORACLE SERVICES

Maximizing the value of your Oracle investment

Businesses of any size can benefit from the complete solution stack of software and hardware that Oracle provides

GSS Infotech's dedicated Oracle practice, combines unparalleled development, deployment and support expertise resulting in increased productivity and accelerated ROI for our clients.

Oracle services

Strategy & Roadmap

GSS Infotech evaluates your existing practices and systems, then recommend a roadmap and implementation to deliver enhanced operational and business efficiencies.

Implementation & Rollout

Setup, configure and customize Oracle infrastructure to support your business needs. We provide support for each project phase from process benchmarking and gap analysis to deployment and integration; and post-deployment diagnostics.

Application Maintenance & Support

Gain expert maintenance, as well as functional and technical support for your business-critical applications such as Oracle EBS, Oracle Fusion, and Oracle Database.

Managed Services

We maintain and support the infrastructure, databases and security of your Oracle systems better synchronizing IT with your business systems to maximize performance and reduce operational costs.

Why Choose GSS Infotech?

Execution Excellence

With over a decade of association with Oracle, our team comprises of 450 certified oracle experts and 100 application engineers; delivered over 250 successful Oracle projects, backed by strong customer references.

Business Value

We don't presume to have a one size fits all methodology. We give our clients the flexibility to choose the engagement model that best fits your business. Utilizing "right-shoring" methodologies we ensure optimum pricing with exceptional quality.

Customer Satisfaction

We will help in identifying, targeting, managing and achieving your business goals. We seek to understand the value and benefits we are going to target and achieve with each implementation, each upgrade, and each transformation.

End-to-End Services

Our capabilities include broad and deep technology expertise across all key business disciplines built around the Oracle platform. We have deep knowledge throughout the organization, including strategy, technology, finance, program management, change management and supply chain.

About GSS Infotech

GSS Infotech provides enterprise level technology solutions that focus on driving business efficiency and reducing total cost of ownership. Founded in 1999, GSS Infotech operates worldwide through offices in the U.S., India and the Middle East. We provide customized and cost-effective solutions to customers, focusing on Infrastructure Management, Cloud Enablement and Application Development.

Oracle Technology Competencies

E-Business Suite
GSS Infotech offers full cycle implementation and support services for core oracle EBS application modules, including Financial, Supply Chain, Distribution, Human Resource and Customer Relations. We ensure high availability of your EBS suite by following clearly defined service level agreements and statement of works.

E-Business Suite R12 Upgrades
GSS Infotech also provides comprehensive and tailored EBS R12 upgrade solutions based on assessing the potential improvements and benefits the new functionality can bring to your organization.

Oracle Database
Oracle database management at GSS Infotech acts as an extension of your in-house DBA resources and provides superior database administration services including high availability planning and implementations, capacity planning, performance and security assessment. We focus on keeping your systems running smoothly and provide the level of expertise you need to quickly resolve any database problem that may occur.

Oracle Middleware Services
Using Oracle middleware technologies, we enable our customers to quickly deploy enterprise infrastructure platforms that can be readily adapted for their future business needs, including for the next generation cloud computing environment. Oracle middleware products supported by GSS Infotech include Application Server (OAS) Version (9i,10g,11g); WebLogic Server (Version 8,9,10); Identity Management 11g; and Fusion Middleware 11g | SOA Suite.

Oracle Virtualization
GSS Infotech goes far beyond installation and enables you to virtualize and manage your full hardware and software stack. We serve as a single point of enterprise-class support for your entire virtualization environments, including Oracle Database, Fusion Middleware, Applications, and Linux, which are certified with Oracle VM.
