Integrating People, Process and Technology

CORPORATE PROFILE

GSS Infotech is a global leader in Infrastructure Management, Application Development and Healthcare Solutions.

For more than 11 years, our unique blend of domain expertise, operational excellence and innovative technology application have delivered process improvement and actionable business insight to marquee clients all over the world.

We help organizations leverage the power of Virtualization, "The Cloud" and outsourced models of technology services delivery. Utilizing these technologies, we help organizations gain competitive advantage, "right size" costs, ensure system stability and improve efficiency.

Why GSS Infotech
In an increasingly dynamic and globally connected business environment, organizations are constantly challenged to increase efficiency while decreasing investment.

Technology is an enabler to business growth, but only if applied in the most appropriate way. GSS Infotech focuses on solving the business problem first, then we develop and manage robust solutions that deliver

maximum ROI, and with the lowest TCO.
